Leader's Speech

"Our comprehensive range of sterile medical devices provides a powerful solution to address the critical issue of hygiene in healthcare settings. With our products, we ensure the highest level of cleanliness and infection control, safeguarding both patients and healthcare professionals. By embracing our medical disposable apparels, you gain an effective shield against contamination, promoting a safer and healthier environment for all."

Ummar Farook Y

Managing Director
Navani Meditex Pvt Ltd

Who We Are

Navani Meditex Pvt Ltd, established in 2019 in Palakkad, Kerala, is a purpose-driven organization committed to safeguarding human lives from hospital and environmental acquired infections. With a team of dedicated individuals, we strive to provide affordable, high-quality sterile medical devices. Our state-of-the-art facility, equipped with advanced technology and machinery, adheres to stringent quality guidelines to ensure reliable and efficient products that prevent infections. Through relentless innovation and research and development, we continuously create new solutions that contribute to our higher purpose of enabling humanity to thrive.

Our journey began as a response to the critical need for preventing infections in healthcare settings. Driven by a deep sense of responsibility, our founders aimed to make a positive impact on society by offering access to high-quality and affordable medical devices. We attribute our success to the collective efforts of our diverse workforce, each contributing their unique skills and expertise. With a focus on innovation and collaboration with healthcare professionals, we constantly strive to identify emerging trends and address market gaps, leveraging the latest advancements in technology and materials.

At Navani Meditex, we are committed to our mission of safeguarding lives, and we look forward to furthering our impact by providing innovative solutions and improving healthcare outcomes for all.

Purpose

To secure the human life from hospital and environmental acquired infection through the use of affordable, quality oriented sterile medical devices so that humanity can grow and prosper.

Vision

To provide sustainable, superior quality sterile medical devices by using world class raw materials, being planet friendly by minimising environmental waste and ensuring affordability to humans.

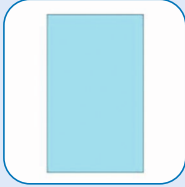

Mission

To be a formidable player in the industry and to produce innovative, quality driven, affordable sterile medical devices and expand our geographical presence year on so as to fuel our journey towards higher purpose.
